Throughout a 15-year career as a Front End Developer, excellence has been achieved in collaborating with diverse teams and designers, contributing significantly to the creation of impactful user experiences for over 1000-plus clients.

## EXPERIENCE

---

### Humana - Senior Software Engineer - Front End

06/2022 - Present

- Engineered Headless web application from the ground up in ReactJS, NextJS, and Typescript.
- Utilized RadixUI and TailwindCSS to create a cohesive and visually appealing Storybook component library in collaboration with the Design Team, creating over 40 custom components.
- Produced the Secure Landing Page and Prescription Filtering Page of the Centerwell Pharmacy Application.

### Author by Humana - Senior Software Engineer - Front End

06/2021 - 06/2022

- Played a key role in the successful completion of the team's project by overseeing a design overhaul and implementing accessibility features for AA compliance, along with over 260 SVG icons converted into React components.
- Transformed a ReactJS login page into pure HTML/CSS/Javascript for integration with a third-party authenticator.

### InterCoastal Net Designs - Lead Front End Developer

12/2017 - 06/2021

- Led Front End Developers across 4 teams, ensuring consistency with coding standards and integrating the latest web development trends.
- Designed and developed a Rental Booking Platform from scratch using Adobe XD and HTML/CSS/jQuery/JSON/Coldfusion. Achieved a significant 25% increase in conversions and enhanced page speed by 50%.

### Navient - UX Developer

07/2017 - 11/2017

- Crafted 508-compliant pages for accessibility for those with disabilities and screen readers.
- Led a team of 3 Junior UX Developer Interns and assigned at least one new task a day to facilitate their growth.
- Utilized heavy jQuery and Sass in a Razor Syntax C# environment.

### InterCoastal Net Designs - Front End Developer

11/2015 - 07/2017

- Resolved 6-10 client issues a day through a ticketing system and handled Service License Agreement tasks.
- Fine-tuned and crafted 3 internal tools for the company using HTML/CSS/jQuery/Coldfusion.

### Orbis Education - Web Developer & Graphic Designer

08/2014 - 08/2015

- Designed and developed 10 custom WordPress websites for each nursing-focused university using PHP/HTML/CSS/Sass/Javascript.
- Created marketing materials and actively participated in the writing of 10 nursing blogs.

### InterCoastal Net Designs - Front End Developer & Graphic Designer

07/2008 - 06/2014

- Worked directly with clients to design and formulate their websites in Photoshop and develop them in HTML/CSS/jQuery.
- Assisted with the development of over 500 client websites over the span of 6 years.
- Debugged client websites in all major browsers and older browsers such as IE6/7/8/9.
